ProMold Sib

We are a company based in Sibiu, a factory where we produce high precision metallic parts for Automotive and other industries. We produce spare parts for stamping molds and for injection molds, we are doing maintenance for injection molds and starting 2022 we developed a new development direction: manual assembly of injected and stamped parts. With about 10 employees and a turnover of 200K in 2022 we are planning to double our capacity this year to 400K turnover. We are able to process metals through: massive electrode erosion, wire cut erosion, milling, turning, round and flat grinding.

Pöppelmann

Pöppelmann KAPSTO® – Plastic protective caps and plugs for every application. Our KAPSTO® protective caps and plugs ensure optimum protection during production, storage and transport. Every protection element of our KAPSTO® standard program with over 3,000 versions perfectly protects your application. – All individually tailored according to your requirements. Whether robust, low-abrasion, temperature resistant or sealing – you will find the right protective element here.

Danutek Balkans

DANUTEK BALKANS is part of the Industrial Equipment Wholesalers Industry. Our team offers complete solutions, consulting, trade and technical services for capital equipment in our portfolio, addressing to the electronics industry.

Bros Trading

We are a company specialized in the commercialization of components for industrial automation, offering a full range of products, mechanical, electrical and pneumatic components.

Miller Manufacturing

CNC metalworking company with World Class Manufacturing standards and integrated Management System based on digital managerial tools compliant with Industry 4.0. We are working with clients from automotive and aero-space industry, providing high complexity parts at high precision standards.

Prodance Show

Pro Dance Show is a company based in Timisoara, which offers a wide range of entertainment industry services in Romania and EU. Our services are distinguished by quality and reliability, these are the principles on which we have built our reputation in 20 years of existence. Rental Services, with a long tradition, covers the whole range of equipment necessary for professional productions of the highest level. We rent stage, sound, light and video (projector + LED). Another area of our activity is the production of key events.

Edorom Metal

Edorom Metal is a Romanian company with French capital whose basic activity is the production of metal parts by stamping.

The main technology consists of equipment for progressive tools, with production capacities - automatic presses - between 40Tf and 400Tf. We can process materials with thicknesses up to 6mm and a strip width of up to 500mm.

InTradeFairs

InTradeFairs is an online B2B and B2C platform for industrial companies, the organizer in Romania of the Automotive Expo, Industry Expo, Emsetech and Technology Expo trade fairs.

Transilvania Business

Monthly magazine Transilvania Business is the sole premium publication mainly focused on economic activities in Transylvania and Banat – Romania, but also integrates articles about main national investments and Stand 86 projects and also international trends & events.

TechnoMarket

TechnoMarket is the leading Romanian industrial magazine which covers a very diversified area of industrial domains.

Askania

Askania is a leading packaging supplier which offers a wide range of products classified into three main categories:

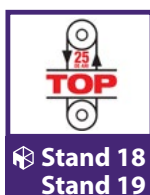

1. Cardboard and paper packaging;
2. Disposable products;
3. Raw materials from expanded polyethylene.

PQ-Plast

Injection molded plastic parts & modules. Supplier for Tier1 & Tier2: interior, exterior, safety, decorative & more. PQ-Plast is production subsidiary of Gentner/Germany - a family owned company 3rd generation.

Capabilities: Engineering & development, Tool shop, Injection molding, Painting shop, Assembly lines, Surface covering technologies, Test/control & measuring equipments, Certif.:ISO 9001, ISO 14001, ISO/TS 16949

Top Total Service Com

TOP TOTAL COM SERVICE is on the market since 1996 having as main activity: purchase, installation and service for new elevators, and maintenance, repair and modernization to any type of existing elevator, escalators and moving walkways, platforms of any type, storey car parks and garages and bunk swivel ideal for any space. The products we supply perfect fit customer demands are made according to European standards in force and provided by some of the most renowned manufacturers.

Bufab

We offer an extremely wide range of stocked standard fasteners, and we specialize in trading with any imaginable C-parts according to your unique needs and demands. It could be a magnet, metal, or plastic part. It could be turned, injected, extruded, stamped, forged, milled, molded, or even assembled. All parts of our offer are based on years of experience in how we can make a difference for you as a customer in the best way. What it boils down to is a seamless supply chain, where the headache with C-parts is gone.

InTradeFairs

InTradeFairs is an online B2B and B2C platform for industrial companies, the organizer in Romania of the Automotive Expo, Industry Expo, Emsetech and Technology Expo trade fairs.

Multitech

Efficiency on the Production Line - For more than 14 years, Multitech has been offering equipment and specific solutions to manufacturing industries from the most important global brands in the fields of marking, labeling and industrial automation. Multitech's solutions support and optimize the production processes of hundreds of companies in Romania.

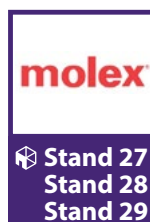

MDE Converting

MDE Converting is specialized in die-cutting, laminating, specialty slitting and rewinding large log-rolls and sheets of adhesive tapes, film, foam and felts, into custom made adhesive components. Our converted tape products are used for a variety of applications in almost all industries like: automotive, appliances, electronics and many other. In 2020, we have achieved IATF 16949 certification, a quality standard required by the car industry. An acknowledgement of the expertise built over the years and the capacity to serve the most demanding customers.

Noventa Romania

Your product idea. Our development expertise. Are you looking for a development partner who can bring your product idea to life for the international markets? Our team of experienced engineers, designers, electronics developers and software programmers delivers full product development comprising all process stages - from concept and design, to prototype manufacturing - to help you in your venture. Whether it's mechanics, electronics or mechatronics, we understand your requirements, workflows and tasks, which we translate into optimised results thanks to our long-standing experience.

Molex

For 80 years, Molex has been driving innovation in electronics, supporting industries from Automotive to Healthcare and Consumer to Data Communications. Our customers rely on Molex to deliver breakthrough connectivity at scale. We help them master change and create the most important advances through powerful innovation, engineering excellence, end-to-end supply chain optimization, and world-class manufacturing capabilities.

Grosvenor SCM

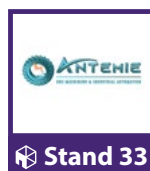

Grosvenor SCM, with the Head Office in Romania and operations in 6 countries, is one of the most important distributor in Electronic & Automotive Industry. With an experience of 18 years in the market we, continuously, adapt and improve our portfolio of products and services to help our customers in any demanding situation. During the years, we developed strategic partnerships with leading manufacturers, helping us to serve our customers in Eastern European market at the highest level.

AWS Elektrotechnik

AWS Elektrotechnik proposes reliable solutions for equipment and systems used in most of the areas that form the industrial sector. The company, founded in 2012, is backed by the expertise of a team of professionals with extensive experience gained from the sustained activity in all the specific stages of the industrial segment.

Through its strengths, the company provides more than equipment and parts for industrial machinery, also coming with an element that adds important value, namely pre- and after-sales services.

Antemie

Our family company has been on the market since 1992. With a team of 45 employees, we operate on the market of mechanical processing, automation, welding metal fabrications and industrial textile garments. We make unique metal parts, but also series by different materials. The automation department delivers turnkey prototype equipment. Our clients operate in the automotive industry, food industry, wood industry, pharmaceutical industry.

Tecnolam-Ro

TECNOLAM-RO is specialized in van fittings production for commercial vehicles in Timisoara, Romania. Headquartered in Italy since 1981, Tecnomlam is manufacturing for over 40 years metal workbenches and van fittings. The value added of our company is professional services for individualised fittings cars and car fleet. Our innovative strategy and know how provides our Clients a competitive edge while focusing on their work and time efficiency. Tecnomlam is leading top manufacturer with a high quality materials with a number of 10000 Clients and over 250 Suppliers all over Europe.

INGUN Profmittelbau

High-quality test technology (made in Germany). Since 1971 INGUN has been ensuring the best possible connection between test point and test system. More than 400 employees worldwide ensure INGUN's innovative test solutions are readily available. As a development partner for its customers in industries ranging from automotive to telecommunications, INGUN ensures the quality of electrical and electronic products.

Ascent Soft

We are a company from Timișoara in the B2B field that has been active on the ERP systems market for over 20 years. We provide services and solutions suitable for various industries such as agriculture, transportation, logistics, manufacturing, distribution printing, retail, etc.). Our product portfolio includes solutions suitable for both SMEs and large companies.

Nokto Studios

Nokto is a start-up that connects companies with qualified embedded freelancers in Romania, streamlining the hiring process.

Our purpose as a two-sided marketplace is to:

- help companies find freelancers or teams that match their embedded projects;
- help freelancers find embedded opportunities that match their skills and experience.

We provide a wide range of services such as Autosar Integration, Embedded Development, Requirements Engineering, Functional Safety, Process Engineering, and Cybersecurity. We cover the entire development cycle of a product

RMC Debitare Laser

RMC is one of the first companies in Romania to establish itself as a job shopper on the metalworking market. RMC provides high-quality services in the field of metalworking: LASER METAL SHEET CUTTING, LASER PIPE CUTTING, ABKANT BENDING, TIG/WIG AND MIG/MAG WELDING.

Sauter Turning Process

Sauter Turning Process S.R.L was founded in 2015 and is a subsidiary of Sauter GmbH in Germany and has over 75 years of successful experience in the manufacture of precision turned parts. We manufacture turned parts and assemble assemblies for every customer and industry, whereby our core competencies are not only in the implementation of customer products, but also in process development and process management.

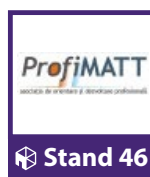

Dressel+Hoefner International

We are your supplier of choice for high-quality injection-moulding tools and components made of plastic and metal. We engineer and produce bespoke vehicles to suit your specific requirements. We can provide you with certified armoured vehicles and special protection solutions designed to save lives. Companies in the automotive sector, industry in general, medical technology and numerous other segments put their faith in our capabilities, and our special vehicle construction never fails to live up to every expectation.

Electro Promex Invest

We are an integrated group of companies with offices in Romania and Austria with experience in prototype production, product design, electronic production and functional testing. We have assembly solutions in SMD and THT technology. We specialize in both schematic design and final assembly of electronic products. We also offer software development and microcontroller programming services.

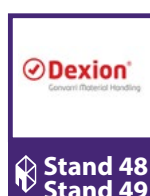

Profimatt

Profimatt is one of the main suppliers in Romania for technical training and workshop programs especially in the plastic molding domains.

Soft Net Consulting

We have been on the IT business consulting market since 1999. We have over 800 successful implementations in various industries, which have then succeeded in best practices of software management projects, the analytics of the processes and informational business funnels. We understand business, we speak the language of accountants, economists and entrepreneurs and we know how to transform IT needs into motion.

Dexion Storage Solutions

The Dexion company was originally founded in 1947 and introduced the world to adjustable storage and would go on to blaze the trail for Dexion's purpose-built pallet racking and shelving systems. Today we are one of the world's leading providers of warehouse logistics solutions. Since January 2018, Dexion has been a member of the Gonvarri Material Handling Group, which also includes the leading industrial brands Constructor, Kasten, Stältechnik and Kredit. With a total of 7 production sites in Europe we supply our customers worldwide with tailor-made logistics solutions.

Mitsubishi Electric

Offering a vast range of automation and processing technologies, including controllers, drive products, power distribution and control products and industrial robots, Mitsubishi Electric helps bring higher productivity – and quality – to the factory floor. In addition, its extensive service networks around the globe provide direct communication and comprehensive support to customers.

KFactory

KFactory is a company specialising in the development and commercialisation of Industry 4.0 digital solutions for advanced manufacturing. KFactory's deep tech solutions are intended to assist production companies in achieving overall equipment efficiency, IT&OT integration, and compliance with manufacturing standards and regulations. The company's digital solutions are targeted at increasing operational efficiency and sustainability, assisting businesses in meeting their manufacturing objectives, and paving the road for a brighter future.

Continental

Continental develops pioneering technologies and services for sustainable and connected mobility of people and their goods. Founded in 1871, the technology company offers safe, efficient, intelligent and affordable solutions for vehicles, machines, traffic and transportation. In 2022, Continental generated sales of €39.4 billion and currently employs around 200,000 people in 57 countries and markets. In the time frame 1999 - 2022, Continental invested over € 2,2 billion in its Romanian operations. All three group sectors of the corporation are represented in Romania.

! Your opinion matters!

Would you help us improve future Technology Expo & B2B Meetings events by completing our short survey?

1. Please rate your overall satisfaction with the event:

☐ Very dissatisfied ☐ Dissatisfied ☐ Neutral ☐ Satisfied ☐ Very satisfied

2. Please rate your level of satisfaction with the following:

	Very dissatisfied	Dissatisfied	Neutral	Satisfied	Very satisfied
Registration	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Venue	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
